

Juno's All-Inclusive Real-Time Supply Chain Management Solution

J-TRAK is our proprietary web-based supply chain visibility portal that combines 24/7 granular tracking with actionable reports and document management — the optimal combination of transparency and visibility — including complete integration into the Juno Customs brokerage importer portal, Entry Insight.

INSTANT ACCESS TO:

SUMMARY CARD

An up-to-date tracking map and pertinent shipment information are summarized here.

MILESTONE TIMELINE

Well-defined milestones, starting from your freight's origin through its final destination.

KEY CONTACTS

Your shipper and consignee, along with your Juno Logistics team's direct contact information.

NAVIGATION TABS:

Packing

Commodity description, quantity, and other details per your commercial documents.

Shipment References

Tag or number your shipment so it can be easily searched or retrieved at a later time.

Customs Clearance

ISF and clearance status visibility with direct access to your Customs compliance data in Entry Insight.

Documents

Your commercial documents are available for downloading through our digital document management system.

TRANSIT MILESTONES

Milestone timelines of each leg of your shipment (Road, Air, Ocean, Rail, Parcel, Customs) are documented from origin to destination.
